Acceptable Attire (Board Policy 1100)

For more information, refer to Board Policy 1100.

Accident Reporting for Staff (Board Policy 5005)

Please report all accidents to your supervisor as soon as possible after the injury. Remember it is important that you let us know if you need to visit a doctor or hospital or if you lose any days from work, as a result of injury. Additionally, a network pharmacy must be used for any medications you may receive for your work-related injury or sickness.

**** Please inform doctor/hospital at the time of treatment that is an on-the-job injury. ****

You can access the Employee Report of Injury form online at: <http://www.hfmboces.org/employees>
For more information, refer to Board Policy 5005.

Accident Reporting for Students

All student injuries or health related issues need to be reported to the nurse immediately following the health-related injury. If the nurse is unavailable, contact the medical assisting teacher if there is no substitute available for the nurse.

Americans with Disabilities Act (Board Policy 0010)

The Americans with Disabilities Act of 1990 (ADA) prohibits discrimination and ensures equal opportunity for persons with disabilities in employment, state and local government services, public accommodations, commercial facilities, and transportation. If you need a disability accommodation in order to perform your essential job functions, you should refer to Board Policy 0010 for more detailed information.

Annual Compliance Training

All employees will complete mandatory compliance training every year that is required due to State and Federal regulations. There may be additional trainings that will need to be completed by certain employee groups based upon their relevant job responsibilities. You will be notified of the specific annual trainings that you need to complete and how to complete them.

Attendance at Conferences (Board Policy 6104)

Attendance at conferences must be approved by the appropriate administrator. You must submit a completed conference request form in a timely manner and secure the approval (signature) by the appropriate administrator before attending any conference. Please keep in mind that when considering conference requests, the administrator will consider budget allocations for cost/benefit, conformance of the conference to student and program needs, relevance of the conference to your assignment and/or roles within HFM BOCES, number of current year conferences attended by you and/or attendance to the same conference in consecutive years, as well as timeliness of the request. For more information, refer to Board Policy 6104.

Blood Borne Pathogens

It is important for HFM BOCES to ensure the safety of their staff and students. When dealing with blood and bodily fluids, you should take care to protect yourself.

To prevent infection:

- Avoid contact with blood and other bodily fluids.
- Use CPR breathing barriers, such as resuscitation masks when giving ventilations (rescue breaths).
- Wear disposable gloves whenever providing care, particularly if you may come into contact with blood or bodily fluids. Also wear protective coverings, such as a mask, eyewear, and a gown, if blood or other bodily fluids can splash.
- Cover any cuts, scrapes or sores and remove jewelry, including rings, before wearing disposable gloves.
- Change gloves before providing care to a different victim.
- Remove disposable gloves without contacting the soiled part of the gloves and dispose of them in a proper container.
- Thoroughly wash your hands and other areas immediately after providing care. Use alcohol-based hand sanitizer where hand-washing facilities are not available if your hands are not visibly soiled. When practical, wash your hands before providing care.

If you are exposed you must follow these steps:

- Wash needle stick injuries, cuts and exposed skin thoroughly with soap and water.
- If splashed with blood or potentially infectious material around the mouth or nose, flush area with water.

- If splashed in or around the eyes, irrigate with clean water, saline or sterile irrigate for 20 minutes.
- Record the incident by writing down what happened. Include the date, time, and circumstances of the exposure, any actions taken after the exposure, and any other information as requested.
- Seek immediate follow-up care as identified in our employer's exposure control plan by contacting the School Nurse/Business Office.
